Rhythmic Vision

TERMS & CONDITIONS OF REGISTRATON & PHOTOGRAPHY

Anyone who registers a gymnast, coach or judge on rhythmic vision takes full responsibility for submitting the data that they enter into the public domain. Rhythmic Vision and the organisers of competitions may publish any data entered through registration except for emails, phone numbers and BG numbers.

Also, by registering gymnasts you are taking responsibility for consent of photography and videography of the gymnast. Consent relates to the taking of photos and videos at the event and the right to sell them or publish them online. Consent is considered granted by default and may be removed by direct contact with Rhythmic Vision. Anyone purchasing the photos or videos will require a 6-character key to download them and the coach who registers any gymnast must also give this 6-character key in person to the gymnast and the gymnast only. The keys are on the members page.

All data can be rightfully removed from rhythmic vision but requests to do so or remove consent must be made at least 24 hours in advance.

Anyone registering gymnasts at an event must make sure that the parents know and understand these terms and conditions before registering.
